UNITED CHURCH BUILDERS TO PARTNER WITH INSPIRATIONAL BAPTIST CHURCH

Forest Park, Ohio – The Inspirational Baptist Church has partnered with UCB to design and build a new 65,000 square foot church facility at the site of the old Surf Cincinnati water park in Forest Park. Zoning changes for the site challenged the initial purchase of the land, but UCB worked with officials to realize the benefits of the addition of a faith based organization to the city.

The property site, once a water park, needs extensive demolition in order for site work to be completed. All rides have to be dismantled and disposed of. Concrete from the wave pool, sometimes three feet in thickness, as well as sidewalks and other ride areas will be recycled. The concrete will be crushed and used for a gravel base under the paved asphalt for the parking lot and property entryways.

The church facility will include a worship auditorium, classrooms, children's area, gymnasium, café, bookstore and an administrative wing, all totaling 65,000 square feet of space. The site will also accommodate future expansion of the facility, as well as a Go-kart track and a miniature golf course.
